

d. Remarks**Withdrawal of Part of the Response mailed Oct. 7, 2004**

Applicant files this Request for Continued Examination to withdraw arguments in a Response that was mailed on Oct. 7, 2004. That earlier Response replied to an Office Action that was mailed on June 7, 2004.

Applicant withdraws all arguments in the subsection "Rejections under 35 U.S.C. 103" at pages 8 – 10 of the earlier Response of Oct. 7, 2004. The arguments stated that col. 2, lines 5 – 16, and Figures 2 – 3 of Price do not describe NRZ waveforms or NRZ modulation and also stated that some of said portions and/or other portions of Price describe RZ waveforms and/or RZ modulation. The arguments were based on an incorrect belief by the Applicant's Representative. The arguments are being withdrawn, because said Applicant's Representative now understands that one of skill in the art might consider some of the above-cited parts of Price as describing NRZ waveforms and/or NRZ modulation. In this application, the expression non-return-to-zero (NRZ) should have the meaning that this expression would have to one of skill in the art.
